

## Who We Are

Carson's Village is a first-of-its-kind nonprofit that helps families navigate the decisions they face immediately after experiencing the loss of a loved one. They offer a free digital library of resources at [carsonsvillage.org](http://carsonsvillage.org) categorized by topic as well as virtual 1:1 support to walk families through what needs to be done from the passing to the funeral. In addition, we help families connect to long term mental health resources.
